Khmelnyskyy***	SS-19: 0 launchers, 0 ICBMs	SS-19: 0 launchers, 0 ICBMs

*As of 1 June 1996, all nuclear warheads have been withdrawn to Russia for dismantlement in accordance with the Trilateral Statement. Not all silos have been dismantled, though, so some START-accountable launchers (and therefore warheads) remain on the books until the destruction process is complete.

** Non-deployed

*** The ICBM bases for silo launchers of ICBMs at Pervomaysk and Khmelnyskyy are considered eliminated for the purposes of the START-I Treaty. {Updated 3/10/2003 EMC}
